ocean current regime found in the tropical regions of the northern Indian Ocean. During winter, the flow of the upper ocean is directed westward from near the Indonesian Archipelago to the Arabian Sea.

Indian Monsoon Current - Wikipedia

The summer monsoon is associated with heavy rainfall. It usually happens

Download Ebook Monsoon The Indian Ocean And

between April and September. As winter ends, warm, moist air from the southwest Indian Ocean blows toward countries like India, Sri Lanka, Bangladesh, and Myanmar. The summer monsoon brings a humid climate and torrential rainfall to these areas.

Highway Across the Ocean The monsoon is

Download Ebook Monsoon The Indian Ocean And

a seasonal wind that reverses direction twice a year. Starting in June, the Indian subcontinent heats up, creating a low-pressure system that draws cool, moist air from the southwest. This produces a wind that blows steadily through the summer months and brings the rains that sustain India's agriculture.
